334	All the staff members should be kind to the students. Teachers should be little free with the students as it helps the students to ask the quire's or any problems to them. Overall the institution should improve as it has its name outside and automatically the students will improve

346	Firstly change college timing, because it is too early, however localities can come but how the students can come from far places. In my point of view start it at 10:00am. And in that drainage system of college is worst, In tiolets there is no water and cleaniness at all cheee! There is reading room, but students don't take proper use of that, in reverse they disturb those students also who come their for reading and studying. Those naughty students do such things play music, discussing loudly, talking and laughing loudly and using mobiles etc, these all things should be entertained by college please take neccessary action. As i said above students come from far places or from belgavi, i think 65% of total strength of students in college bring tiffins but there is no proper place to sit and have food, they can use the space of old computer room which is located at top floor. THANK YOU.
347	1 more practical teaching 2 consider the student opinions about teacher's 3 equal opportunity to other students
